# Yug Agarwal

Specialist @Codeforces || 4# @Codechef || Competitive Programmer || Sophomore @IIIT Bhubaneswar India

## Summary

An enthusiastic sophomore pursuing a B.Tech in Information Technology at IIIT Bhubaneswar, with a strong interest in problem-solving, competitive programming, and building practical software systems. I have solved 500+ problems on Codeforces, achieved a Specialist rating, and maintained a longest streak of 99 consecutive days. I am also a 4-star rated programmer on CodeChef.

Through consistent participation in competitive programming, I have developed strong analytical and algorithmic thinking skills, enabling me to approach complex problems with clarity and efficiency. Alongside this, I actively work on software and AI-driven projects, applying these problem-solving skills in real-world scenarios.

I am driven by continuous learning and enjoy exploring new technologies, especially in software development and AI. I am keen to connect with like-minded individuals and seek opportunities where I can grow, contribute meaningfully, and build impactful solutions.
